

THE Steel Giant Grubber

Which has proved so successful in clearing land of lantana was introduced by the PACIFIC HARDWARE COMPANY, LIMITED, a little more than a year ago and has the endorsement of those who have used it.

The several invoices of Grubbers already received have been disposed of so promptly on arrival that they have not been advertised.

A few of the No. 2 size are now in stock and a supply of No. 1 are expected at an early date.

Any one interested in freeing his land of lantana should correspond with the

Pacific Hardware Co., Ltd.

Fort Street, Honolulu.

KEWALO IS SEWERED

Ditch Completed and Street Begun.

AUGUST WILL SEE THE FINISH

Ward Avenue Will Connect With the Ala Moana and Provide Fine Thoroughfare.

Before the end of August there will be completed the construction of the new storm sewer extending from Spencer street to the sea, by way of the Kewalo ditch. The sewer is being laid very rapidly just now and the work will progress with even more speed once the hill side is reached, for there is no macadam on the roads to impede the work of the trenchers.

The effects of the ditch as completed and in working order are so apparent to any one that there is among the residents of Kewalo only praise for the Department of Public Works. The ditch has been the means of clearing all the standing water from the blocks mauka of Queen street, and there is now an absolutely clean district, the laterals being flushed daily by the tide and the water kept down by the presence of a drain which connects directly with the ocean.

The present head of the work is just mauka of Young street on Kapiolani, the concrete construction being up with the work of the trench diggers. There is no break in the length of the sewer from the sea to that point. Monday next work will be started connecting the sewer with catch-basins at King street which will mean that the sewer will be at work in the event of any rainstorm after that time. The capacity of the sewer is sufficient to carry away all the water which would fall upon the area to be drained, if the fall takes place at the rate of an inch an hour. More water than that amount, which is infrequent, would cause some little flooding, but the system of catch-basins will be most complete and there would be no danger of a serious collection of storm waters.

Through the property of Mrs. Victoria Ward, Ward street is now being graded at small cost too for material excavated from the sewer ditch is being dumped there and more than half of the filling is complete. Meanwhile work upon the filling from the sea end goes on, the dredger being worked upon the taking up of material which is being used for the extension of this way from that end. The completion of the filling will be the signal for the work to be rushed along and the road will be covered with stone and made one of the finest drives in the city. In this way there will be furnished a connection between the main portion of the residence district and the Ala Moana, which now can be reached only by a roundabout and decidedly unattractive route. The new road will run for its mauka block through lines of ancient coconut trees and will be a most attractive drive in the extreme.

There was appropriated for the construction of the sewer \$25,000, and the most common comment upon the matter was that there would be no chance to complete it upon that sum. When the work is done however it will be found that the entire construction will not have cost more than \$24,000 and that the filling of Ward street with the excavated material will add to this saving a considerable amount. The Assistant Superintendent of Public Works has been giving the work his personal attention.

A THEOSOPHIST ON EVOLUTION

Evolution formed the subject of a lecture interestingly given by Thomas Prime, the English theosophist, at Arion hall last evening. The evolution from the mineral to the animal kingdom and from the latter to the conscious plane in the human being, was graphically told, step by step, and much assistance was given to the audience by Mr. Prime's series of theosophical maps. In introducing his subject the lecturer spoke of the ancient philosophies and their teachers. He said he believed that all the ancient teachers taught about the same belief. They have all spoken of the Trinity. Nature consisted of seven different planes, of seven different phases of matter. The highest faculty of man today is his intuition, or his mind. Scientific men today are postulating upon the hundreds of millions of years represented in the ages of various rocks, but occult science goes even further in the span of time. Where are now oceans there were once continents, with high types of civilization. The time is enormous and cannot be grasped by ordinary minds. Nature is slow in her evolution. What causes all the atoms in nature to combine so freely? Occult science says that these combinations are the beginning of a desire of nature down in the mineral kingdom, signifying the beginning of a life.

TO MY CUSTOMERS:

Realizing the importance of my optical department, I have arranged from now on to devote my entire time and attention to this branch of my business alone.

This will insure that accurate and careful attention to every detail, which the correction of visual defects require.

With a practical experience of over twelve years, in which time thousands of cases, many of a most complicated nature have been fitted by me, this department comes before you as no new thing.

Further, with a well equipped factory, wherein optical lenses of every description are ground accurately, together with the latest scientific instruments in the testing department, I am enabled to guarantee absolutely satisfactory results in every instance. The high reputation which this department has earned in the past, will be fully maintained in the future.

Very Respectfully

H. F. WICHMAN,

MORTGAGEE'S NOTICE OF INTENTION TO FORECLOSE AND OF SALE.

NOTICE IS HEREBY GIVEN THAT by virtue of the power of sale contained in that certain mortgage made by Bettula, of Honolulu, Oahu, Territory of Hawaii, to Wm. L. Peterson, of said Honolulu, dated February 26, 1897, recorded in the Hawaiian Registry of Conveyances in Liber 186, pages 485 and 486, the mortgagee of said mortgage intends to foreclose said mortgage for breach of condition in said mortgage contained, to wit: The non-payment of principal and interest.

Notice is also hereby given that all and singular the lands, tenements and hereditaments described in said mortgage will be sold at Public Auction at the auction rooms of James F. Morgan, on Queen street, in said Honolulu, on Saturday, the 2nd day of August, A. D. 1902, at 12 o'clock noon. The property covered by said mortgage is all of that parcel or tract of land situate at Makala, Hana, Maui, being a portion of the land described in Royal Patent (Grant) 2622, more particularly described in deed of Kana'ole to Bettula, recorded in said Registry in Liber 73, page 423.

Terms: Cash. Deeds at expense of purchaser.

WM. L. PETERSON,
Mortgagee.
Dated Honolulu, June 26th, 1902. 6219

CREDITORS' NOTICE.

THE UNDERSIGNED, ASSIGNEE of Honolulu Paint and Wall Paper Company, Limited, successor to McKechnie Paint and Wall Paper Company, Limited, under deed of assignment, dated July 24, 1902, hereby gives notice to all creditors of said Honolulu Paint and Wall Paper Company, Limited, to file their claims with proof of the same at the office of Robertson & Wilder, Stangenwald Building, City of Honolulu, within sixty days from the date hereof, or they will be barred from participating in any division of the assets. All persons indebted to said Honolulu Paint and Wall Paper Company, Limited, are requested to make immediate payment of same to the undersigned at said office.

Dated Honolulu, July 24, 1902.
H. T. JAMES,
Assignee of Honolulu Paint and Wall Paper Co., Ltd. 6230

WAIMEA SUGAR MILL CO.

JAS. F. MORGAN.

AUCTIONEER.

Auction Sale

—OF—

Valuable Property

—IN—

Nuuanu Valley

ON SATURDAY, AUGUST 2,

AT 12 O'CLOCK NOON.

That desirable block of land on Nuuanu avenue immediately makai and adjoining the premises of Mr. H. Schultze. This lot has a frontage of about 354 feet on Nuuanu avenue, a depth on mauka side of about 533 feet, and on makai side of about 534 feet, and on rear boundary (through which the stream flows) about 336 feet. Total area is about 4 1/2 acres.

For further particulars and terms and conditions of sale, enquire of

JAS. F. MORGAN,

AUCTIONEER.

RICH LAND

—IN—

Central Kona FOR SALE

By order of REINNE RODANET, Trustee, I offer for sale those certain parcels of land situate at Onouli, South Kona, Island of Hawaii, described in Royal Patent (Grant) No. 1162 to F. O. Schultze, and containing 174 acres. Royal Patent (Grant) No. 2862 to Awahua, and containing 739 75-100 acres, situate at Keepuka and Onouli, Island of Hawaii.

This is a tract of land of over 919 acres, situated in the most fertile and richest portion of the Island of Hawaii. It faces the new Government road, extends to the sea, and is five minutes' walk from Kealahou Bay, by way of the old Government road which runs through the property. Portions of the land are already under cultivation.

This tract is so situated that it is about midway between Kailua and Hookena, and five miles from Napoos, three most important ports of the Kona district. It has sufficient elevation, running up to fourteen hundred feet, to be particularly healthy, and its soil is well adapted to the growth of sugar cane, coffee, fruits, dairying, or for the promotion of diversified farming.

Occupants of this land have easy access to several ports for export, and with the advent of the Kona Railroad will find themselves in close communication with the thriving City of Hilo. This, of course, affords a splendid opportunity for the exporting of farm products to the California markets. With the revival of the Kona Sugar Co., considerable portions of this land can be successfully planted to sugar cane.

This is one of the most splendid opportunities for a good investment that has been put upon the market for a considerable period of time.

Further particulars of

JAMES F. MORGAN,

65 QUEEN STREET.
